HELLA NEW ZEALAND SAFETY DAYLIGHTS ORDER FORM

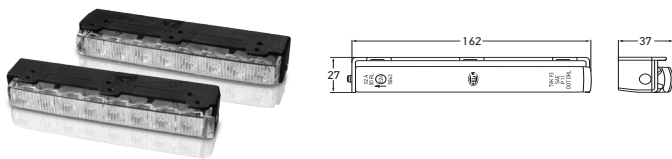

Research tells us that failure to see another road user in time (or at all) is a contributing factor in over 50% of all daytime accidents and increases to as much as 80% for daytime intersection accidents.

So HELLA New Zealand has teamed up with the New Zealand National Rally Championship to assist with driver and road safety. All Category 1 entrants are required to install Safety DayLights, just choose one of the below Safety DayLights options that best suits your vehicle.

Option 1

LED Safety DayLights Kit - 15°

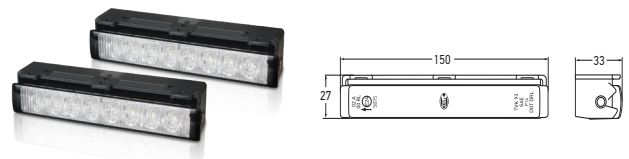

A lens angle of 15 degrees allows installation as close as possible to the corners of a modern motor vehicle.

Option 2

LED Safety DayLights - Easy-Fit 0°

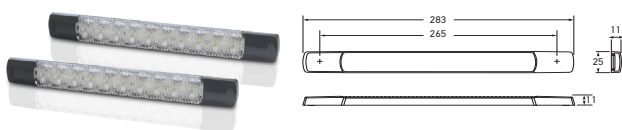

Forward facing signal lamps, designed to be mounted on vehicles with flat fronts.

Option 3

LED Safety DayLights - Surface Mount

Surface mount LED Safety DayLights™ designed to fit flat-fronted vehicles.

Option 4

LED Safety DayLights - 83mm Round

The LED Combination Lamp features an integrated Safety DayLight™ function, front position indicator, and front position lamp.
